

At the Four Points by Sheraton Caguas Real Hotel & Casino, we believe that economic growth and the well-being of society are inextricably tied to the health of the environment. Accordingly, we embrace our responsibility for environmental stewardship and are committed to integrating leading environmental practices and sustainability principles into our core business strategy.

With the support of our associates, guests, and vendors, we actively work to reduce the environmental impact of our business activities and to continually improve and innovate on practices aimed at:

- conserving natural resources,
- minimizing waste and pollution,
- enhancing indoor environmental quality,
- establishing and reporting on key environmental performance indicators, and
- raising environmental awareness among our associates, guests and communities.

We acknowledge that, in many ways, we, like the global community we serve, are only in the early stages of developing and implementing the many changes that will be necessary to achieve these vital goals. Nonetheless, we have begun our journey by establishing the following environmental conservation practices:

- Use of fluorescent light bulbs and low energy consuming equipments in all rooms.
- Use of motion sensors on administrative offices and public areas to activate lighting.
- Use of water aerators on sinks and showers, as well as motion and temperature sensors on guestrooms to control air conditioning units.
- Reduce to a minimum the production of solid waste and promote the recycling of aluminum, paper, plastics and kitchen organics.
- Use only environmentally friendly cleaning products.
- Consistently train our associates in good environmental practices for their assigned duties, and eagerly promote awareness among our guests of our strategies to reduce the environmental impact of our operations.

We strongly believe that our efforts to support a healthy environment serve the interests of both current and future generations and constitute the foundation for enduring success. As a preferred guest of the Four Points by Sheraton Caguas Real Hotel & Casino, we invite you to become familiar with our good environmental conservation practices, give us your feedback to improve them, and participate actively in the activities offered to promote these initiatives.
